

W. P. WHITSETT
VAN NUYS, CALIFORNIA

Feb 10, 1932.

Dear Roy:

I find that it is going to be necessary for me to leave for Washington to attend a conference regarding the Colorado River Aqueduct not later than Feb 20th.

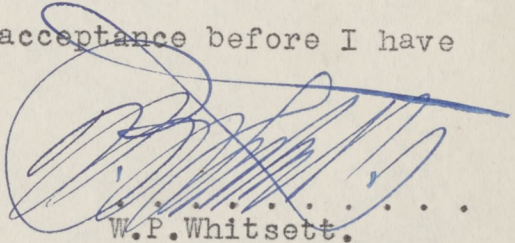

I have no mortgaged land and believe that I can get through this passing situation without having to sacrifice any of my holdings.

On the other hand I believe in the Plan we are working on and that if sufficient general co-operation can be had it should stabilize values and start prosperity over the entire community and I want to do my share in every constructive community activity.

In order to let you and the others working on this plan know just what you can depend on from me I am writing this letter. I will

I will donate five well located acres to the advertising fund and will give whatever time it is possible for me to spare to this stabilizing movement and if the full program can be carried out I will advance the \$12,500. cash for a revolving fund with which to build the houses in groups of five.

This is made subject to acceptance before I have to leave for Washington.

W.P. Whitsett.
